PROFESSIONAL SUMMARY

Senior Data Analyst and Business Intelligence Analyst with 9 years of experience in data analysis and reporting, including 3+ years delivering Power BI and Advanced Excel dashboards for clients in Saudi Arabia, UAE, Egypt, and Spain. Skilled in SQL, Power Query, DAX, data modeling, and ETL processes, transforming raw data into KPI reports and interactive dashboards that support executive decision-making. Experienced across healthcare, retail, manufacturing, hospitality, telecom, and HR. Also builds web-based dashboards with HTML, CSS, and JavaScript and AI-powered monitoring systems using Claude AI to automate KPI alerts and reporting.

CORE COMPETENCIES

- Data Analysis and Business Insights
- Business Intelligence (BI) and Executive Reporting
- Key Performance Indicator (KPI) Reporting and Performance Monitoring
- Interactive Dashboard Development
- Data Cleaning, Transformation, and Validation
- Data Visualization and Data Storytelling
- Reporting Automation
- Healthcare and Public Health Analytics
- Stakeholder Management and Client Communication

TECHNICAL SKILLS

- **Data Analytics:** Data Analysis, Exploratory Data Analysis (EDA), Trend Analysis, Statistical Analysis, Business Performance Analysis
- **Business Intelligence and Visualization:** Business Intelligence (BI), Power BI, Tableau, Data Visualization, Data Storytelling, Interactive Dashboards, KPI Dashboards, Executive Dashboards
- **Data Preparation and ETL:** Power Query, Extract-Transform-Load (ETL) Processes, Data Cleaning, Data Transformation, Data Validation, Data Preparation
- **Data Modeling:** Data Modeling, Data Analysis Expressions (DAX), Power Pivot
- **Databases and Spreadsheets:** SQL, Microsoft Excel (Advanced)
- **Programming and Web:** HTML, CSS, JavaScript, Responsive Dashboard Design, Web-Based Reporting Solutions
- **Reporting:** KPI Tracking and Reporting, Executive Reporting, Business Reporting, Reporting Automation
- **AI and Analytics:** Claude AI, Large Language Models (LLM), AI-Powered Business Monitoring
- **Domain Knowledge:** Healthcare Analytics, Public Health, Epidemiology, Disease Surveillance, Health Information Systems

PROFESSIONAL EXPERIENCE

Freelance Data Analyst & Dashboard Developer

Self-Employed | Jan 2023 – Present

- Designed and delivered end-to-end business intelligence and dashboard solutions for clients in Saudi Arabia, UAE, Egypt, and Spain across healthcare, retail, manufacturing, hospitality, telecom, and HR.
- Built interactive Power BI and Advanced Excel dashboards to monitor business performance and KPIs, supporting executive decision-making.
- Developed custom responsive web-based KPI dashboards using HTML, CSS, and JavaScript for clients in Spain and the UAE, delivering interactive data visualization and reporting across devices.
- Transformed raw data into analysis-ready datasets using Power Query and Excel data modeling techniques.

- Developed AI-powered business monitoring systems using Claude AI to automate KPI alerts and executive reporting and to enable natural language interaction with business data.
- Automated recurring reporting processes, reducing manual reporting effort and improving operational efficiency.

Data Analyst
Ministry of Health – Infectious Diseases Division | *Oct 2017 – Present*

- Analyzed infectious disease datasets to identify epidemiological trends and outbreak indicators, supporting public health decision-making.
- Designed and maintained dynamic Excel dashboards and KPI reports for disease surveillance programs, improving reporting quality and accessibility.
- Collected, cleaned, validated, and transformed large datasets to ensure reporting accuracy, consistency, and data quality.
- Presented analytical findings through data visualizations to ministry leadership and stakeholders.
- Collaborated with epidemiologists and public health specialists to deliver data-driven insights aligned with World Health Organization (WHO) standards.

SELECTED PROJECTS

- **Business Performance Dashboard:** Built executive-level dashboards tracking operational and financial KPIs with drill-through reporting. Reduced executive reporting preparation time by approximately 50%.
- **Sales Performance Dashboard:** Developed interactive dashboards tracking revenue, profit margin, and growth trends, and automated reporting. Improved reporting efficiency by approximately 60%.
- **Hotel Performance Dashboard:** Monitored Occupancy Rate, ADR, and RevPAR to support strategic planning and revenue optimization.
- **Healthcare Analytics Dashboard – ALAEIS General Hospital:** Monitored operational and healthcare performance indicators to support management reporting and decision-making.
- **HR Analytics Dashboard:** Analyzed employee performance, turnover, and attendance trends to deliver workforce insights supporting HR decisions.
- **Telecom Performance Dashboard – STC (Saudi Arabia):** Analyzed telecom KPIs and business metrics and delivered executive reports supporting operational monitoring.
- **Manufacturing Dashboard – Perfume Factory (Saudi Arabia):** Monitored production KPIs and operational efficiency, identified process bottlenecks, and improved performance visibility.
- **Retail Dashboard – Ibrieeq Jamr (Saudi Arabia):** Tracked sales performance and product trends to support data-driven growth initiatives.
- **AI-Powered Business Monitoring System:** Designed and deployed monitoring systems using Claude AI that automate KPI alerts and executive reporting and enable natural language interaction with business data.

EDUCATION

Bachelor's Degree in Public Health, specialization in Epidemiology and Health Information Systems
Mansoura University, Egypt | 2021 – 2022
Applied statistical interpretation and healthcare reporting techniques.
